KEEPING SAFETY FUN

In the corporate safety department, we like to share with the rest of the company great ideas that come from our plant's and service center's safety committees.

In 2016 the Riverside plant ran a safety contest with a fantasy football theme to increase plant participation, eliminate risks, conduct training and, more importantly, have fun! The plant was divided into teams with the same structure as a safety committee: A sponsor, Chair, Co-Chair, Recorder, and members. Each team chose a pro NFL team to represent them. A total of eight teams competed against each other by completing several safety projects in and around the plant. The contest ran from November 2016 through February 2017. Each Team met for 30 minutes a week to discuss safety and complete projects. Meeting times were also spent decorating their boards and completing audits, incident investigations, and training. Each team completed projects to earn yards. When a team earned 100 yards, they earned 7 points. A score board was kept to track each team's progress. Teams who scored the minimum required points earned a POS football jersey with the employee's name and year they were hired represented in their jersey number.

A Super Bowl party was held at the end of the contest to Crown a Champion and Runner-Up. The victorious team was the Vikings! Their members consisted of:

Sergio Lopez (07/24/06) Sales & Service Manager,
Francisco Olguin (08/08/80) Janitor,
Roberto Hernandez (04/13/16) Production,
Terry Panowicz (05/17/10) Maintenance Mechanic,
Adriana Ureta (10/07/96) Production,
Alyssa Blanchard (09/06/16) Office Clerk,
Elisa Hernandez (02/17/03) Production,
Tony Jenchi (10/05/16) Production,
Madison Pernia (07/14/14) Office Clerk.
Congratulations again Vikings for all your hard work!

The safety department reminds all locations that the safety process is yours to customize. Always look for ways to increase plant participation, be open to fresh and creative ideas, reward those who participate and rise above expectations, and as always...have fun!

Milpitas Cleanroom Plant reached 3 Years without an incident on March, 14th, 2017!

PRUDENTIAL CELEBRATES 85TH ANNIVERSARY

Prudential Overall Supply, an industry leader in reusable image work apparel and related textiles, is celebrating its 85th anniversary. Founded by John D Clark in 1932, Prudential has grown from a one man operation to a national brand serving customers throughout North America.

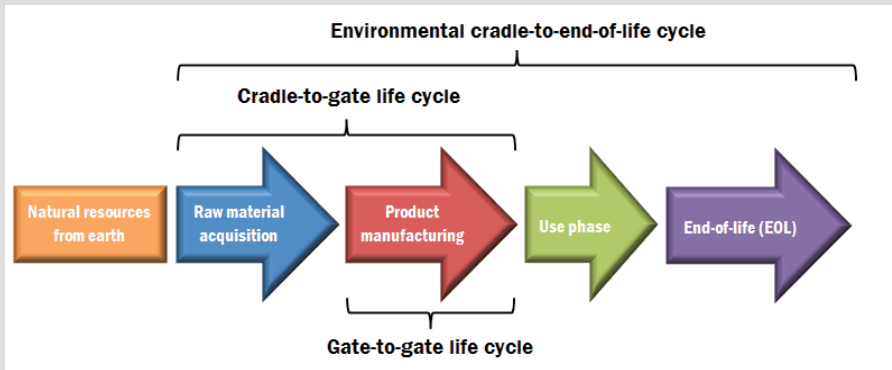

Prudential's second generation owner and Chairman of the Board, Dan Clark comments, "I know my dad (John D Clark) would be very proud that what he started now consists of locations throughout the United States and Puerto Rico. From tiny acorns to giant oaks; this is truly a story of Prudential people working together to accomplish goals."

REUSABLE CLEANROOM COVERALLS - IMPROVING THE SUSTAINABILITY SCORECARD

Cleanroom coveralls are an essential component in facilities for the bioprocessing, life sciences, and semiconductor sectors. By simply adopting reusable garments, the cleanroom facilities can add directly to their sustainability score sheet in the areas of lower energy, improved water footprint, and landfill reductions.

The life cycle study reported herein provides information for use in sustainability scorecards. However, with recent revisions of USP 797, and pending implementation of USP 800 in 2018, cleanroom coveralls are expanding in use to meet sterility and chemical control guidelines. New uses for these coveralls include a variety of compounding facilities (such as for pharmaceuticals that are hazardous, used in radiopharmacology, allergen extracts, and ancillary storage facilities) and many hospital pharmacies. These new markets can achieve the desired product and patient protection and also meet sustainability and environmental improvement goals, based on this new life cycle study.

NEWEST TESTIMONIALS:

"Hi Stacey – just a shout out to Paul Armijo and his service to us here at Fleet Services – Sandia National Laboratories.

In this current day and age we witness things great and small, thing good and downright terrible, I wanted to pass along a story concerning your employee Paul Armijo.

First of all he continually gives us superior service and for that we ARE grateful, we can be a lot to handle!

Secondly and more specifically he came to me today with a leather-man tool in hand (as you know these are not cheap tools – our guys pay \$65+ for these) and turned it in to me stating that it was found in Ben White's jeans. I was then able to return it to Ben and of course asked him to be more careful with his pocket tools.

I wanted you, his other management members (please pass this along), and our Roxane Mares to know **what an outstanding employee you guys have in Paul and how much we appreciate his great service and exhibited work ethic.**

Kudos to Paul!!!!"

Hello PCS Team,

We just wanted to take a moment, and formally recognize your delivery driver that has been on our route recently. If I'm not mistaken, I believe his name is Bryan.

Multiple team members have praised his services lately. They say that Bryan consistently has all of the delivery carts perfectly aligned at the cart laydown when they arrive, and he really hustles to get all of the outbound carts moved from the dock, onto his truck. He's always got a positive attitude towards our associates, and he is always very prompt.

The RFS2 Dock is very small and crowded, so him keeping the delivery carts out of egress paths and promptly moving in/out is very helpful. Please provide a kind word to Bryan for us.

Thanks,
