Prudential Overall Supply

Re: Compliance with California State Public Health Officers' Orders Directing Shelter at Place of Residence – Notice to Employees

Date: March 20, 2020

The State Public Health Officer of California has issued an order directing individuals to shelter at their place of residence, except that they may leave to provide or receive essential products or services or engage in certain essential activities and work for businesses which provide Essential Critical Infrastructure.

Prudential Overall Supply provides goods and services that fall within the exemptions from the shelter in place health order, because the Company and its employees engage in essential activities, maintain essential infrastructure, and are engaged in essential businesses, as set forth in the health order and by the federal government. The Company provides laundry, uniform, and other products and services to healthcare and public health, commercial, government, defense, chemical, information technology, financial, critical manufacturing and other critical infrastructure sectors.

**Under the California, Los Angeles City and County Orders laundry service providers are essential activities that are exempt from the stay at home requirements.**

As such, the Company and its employees are exempt from the requirement to shelter at their place of residence because we are supplying these essential products and services.

Thank you for your continued service during this difficult period. The Company appreciates your efforts.
